Alcohol	<b>14.2%</b>
Price	<b>\$450</b>

### SONOMA COUNTY

94% Merlot  
3% Cabernet Sauvignon  
1% Malbec  
1% Petit Verdot  
1% Cabernet Franc

With a small yield of about two tons per acre the 2007 Merlot is best described as supple, silky and complexly layered. Right away you will notice concentrated yet bright colors that can be attributed to the small amounts of Malbec and Petite Verdot in the final blend.

The contiguous aromatics and flavors of this wine range from black cherry, to plum, dried rose petals, pie spices and pomegranate. We have added to the complexity of this wine by utilizing multiple coopers as well as various ages of French Oak. Finally you will be greeted by lush texture and supple yet full tannins with just the right amount of grip.

This wine would perfectly compliment a pork loin with roasted winter vegetables and a delicate pomegranate reduction.
